

Hydrant Flushing

Week of September 26th to September 30th

Public Works will be flushing hydrants approximately the week of September 26th to September 30th from 7:30am to 4pm, depending on work load. Please do not wash clothes on these days, as they may be stained by rust. Drinking the water is not harmful.

What is the purpose of fire hydrant flushing?

The periodic “flushing” of fire hydrants is an important preventative maintenance activity that helps to insure the integrity of the water system and to provide the highest quality water to our customers. More specifically, hydrant flushing serves the following purposes:

- Flushes sediments from water main pipes, thus enhancing water quality;
- Verifies that fire hydrants and valves are working properly and that ample water flow is available for firefighting needs;
- Aids in determining weaknesses in water pipes and related fittings and valves.

The Village of Lomira Water Utility flushes hydrants twice a year.

Village-wide Rummage Sale Day

The fall Village-wide rummage sale day is set for Saturday, October 8th. The Village-wide rummage sale is not a Village organized “event”, but rather the Village advertises a date so those households who choose to have a rummage sale will get more traffic/sales.

Fall Leaf Collection & Brush Chipping

Leaves can be placed on the terrace on Mondays. Public Works will begin picking up leaves curbside on Mondays beginning **October 3rd through November 14th** as weather permits. Please make sure leaves are set on the terrace **by 7am on Monday** as public works will only make one sweep per street per week. Piles that have excessive amounts of grass will not be picked up curbside. Residents can also take leaves to the dumpsite located at 100 Pleasant Hill Avenue. The dump site is available twenty-four hours a day, seven days a week.

Brush can be placed on the terrace on Mondays all year long (separate from leaves). Brush (sticks and branches) which is large enough to chip may be piled loose on the terrace and should be placed with cut ends all pointing in the same direction as the traffic travels in the lane closest to your property. Branches should not be more than 10’ long. Small brush of ½” diameter or less should be put in a solid container. **Brush placed in bags or cardboard boxes will not be picked up.** If a tree trimming service is hired for maintenance at your residence, that business is required to dispose of the tree brush. Public Works will limit brush chipping to one hour per residence per week so as to better serve the community.

Grass clippings and miscellaneous yard waste such as flowers, leaves and plant trimmings can be brought to the Village dump site located at 100 Pleasant Hill Avenue. The dump site is open for Village residents 24 hours a day, 7 days a week. **Grass clippings and miscellaneous yard waste should not be placed on the terrace and will not be picked up.**

Please do not place brush and leaves on the curb more than 24 hours prior to collection. Help keep the Village of Lomira attractive!

Public Safety Open House

The Lomira Fire Department and Auxiliary will host a public safety open house on Saturday, October 15th from 1pm – 4pm at the fire house located at 549 Church Street, Lomira. Theresa Ambulance and Lomira PD will be there too! The Auxiliary will be selling snow cones, cotton candy and popcorn.

Trick-or-Treat

Village trick-or-treat is set for Sunday, October 30th from 3pm to 5pm. Households wanting to hand out treats should leave an outside light on for trick-or-treaters.

Winter Parking

Village residents are reminded that winter parking regulations go into effect at midnight (12am) on November 15 and continue through March 15. No parking on any street or highway in the Village between 3am and 6am.

Residents are also reminded to make arrangements now to keep sidewalks abutting your property free of snow and ice this winter. If snow or ice remains on any street sidewalk for more than 24 hours, the Public Works crew will clear the walk and bill the property owner. The ordinance also provides for the occupant or owner to be fined for failing to take care of this responsibility.

Village residents are asked to please place garbage and recycling carts **behind** the curb for collection or on each side of the driveway especially in winter. Proper snow removal is difficult when this practice is not followed. Thank you for your cooperation.
