

**Notice of Application for Water Rate Adjustment**  
**Water Customers of the Village of Lomira Municipal Water Utility**

Notice is hereby given that the Lomira Municipal Water Utility filed an application with the Public Service Commission of Wisconsin (PSC) to adjust water rates. The requested increase is 88.23 percent over present water revenues. The previous conventional rate case increase was in 2013. The increase is requested to reduce the existing deficiency in present rates.

The Commission will determine the actual level of the revenue requirement after reviewing the application and holding a hearing. The hearing will be scheduled at a later date. All documents in the application are filed on the PSC's electronic filing system portal at <https://apps.psc.wi.gov> and enter 3180-WR-103 in Docket Search.

The PSC will provide an opportunity for any member of the public to offer an opinion on this matter either in writing, or in person at a public hearing. Water rates will not be changed without PSC and Village Board approval.
