Season passes and swim lesson registration will soon be available online or at the pool when it opens.

Please don't blow grass clippings into the street! It is recommended that when you mow, do not blow the clippings into the street and if you do, you make an effort to clean them up.

The grass clippings can cause several problems. They do not look good in the street, they can be a safety hazard for pedestrians, bicyclists and motorcyclists, and when it rains, they can clog storm drain grates – resulting in flooding and damage to Village and private property.

The Village of Lomira does have an ordinance that requires the mowing of yards and prohibits the clippings from entering the street. Property owners can be cited and fined for violations.
